

eco-lease 13T

Solvent Free Release Agent for Concrete—for use on Vertical Surfaces

Description

Logco eco-lease 13T is an extremely versatile high performance vertical surface chemical release agent. The blend of highly active surfactants in the release agent assist in reducing surface tension at the interface between the concrete and the formwork, ensuring that optimum release is achieved together with a high quality concrete finish. Logco eco-lease 13T is also formulated to reduce the skin sensitisation which is sometimes associated with conventional mould release oils.

Advantages

- Contains no solvents
 - Protects timber against moisture ingress, thus extending the life of the formwork.
 - Is completely versatile suitable for use on timber, plywood, metal or plastic faced formwork.
 - Formulated for use on vertical surfaces
 - Produces uniform, stain-free concrete surfaces
-

Application

Logco eco-lease 13T is supplied ready to use.

Best results are achieved by using low pressure spray equipment, however, if spraying is not possible or is impractical Logco eco-lease 13T may be applied by brush.

A uniform thin film should be applied to the formwork with care being taken to avoid over application.

For new and unsealed timber pre-treatment is recommended with a second coat prior to use, this will extend the useful life of the formwork and help to standardise surface absorbency.

Technical Data

| | |
|-------------------------------|------------------------------------|
| Appearance | Slightly tacky amber mobile liquid |
| Specific Gravity @ 15.6c | 0.881 |
| Flash Point (Abel) | 135°C (Minimum) |
| Viscosity cSt@40°C | 13 |
| Pour Point | <-30°C |
| Average Coverage | 18-30m ² /litre |
| Shelf Life (sealed container) | 12 months minimum |

Health & Safety When working with Logco eco-lease 13T suitable protective clothing, eye/face protection and gloves should be worn.
For further health and safety information, please refer to the relevant Safety Data Sheet

Packaging Logco eco-lease 13T is available in 20 and 200 Litre Containers. IBC`s available on request.

Storage Logco eco-lease 13T should be stored under dry, frost-free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.

Important Note Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company. It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
