

logco-lease QD

Quick Drying Chemical Release Agent

Description logco-lease QD is an extremely versatile quick drying high specification chemical release agent specially blended to give optimum release resulting in high class concrete finishes from most types of formwork.

- Advantages**
- Quick drying release agent suitable for most types of formwork.
 - Extremely economical due to the large coverage rates achieved when applied by spray equipment.
 - Recommended for difficult and intricate casting work.
 - Is not affected by rain
 - The evaporative carrier used in logco-lease QD ensures a safe walking surface on soffit formwork with no contamination of the reinforcement.
 - Prior to the application of subsequent treatments, concrete that has been cast using logco-lease QD requires only a light brush.
-

Application Formwork surfaces to be treated with logco-lease QD should be clean and dry. logco-lease QD should be applied as a thin even film using low pressure spray equipment and any excess material should be removed up prior to placement of the concrete.

New and unsealed timbers should be pre-treated with logco-lease QD with a second application prior to use.

Technical Data	Appearance	Low viscosity clear amber liquid
	Specific Gravity @ 15.6c	0.813
	Flash Point (PMCC)	38°C (Minimum)
	Viscosity	1.8
	Coverage	30-60 m ² per Litre
	Pour Point	<-5°C

A large, bold, blue capital letter 'L' positioned vertically on a light green background.**Health & Safety**

When working with logco-lease QD suitable protective clothing, eye/face protection and gloves should be worn.

For further health and safety information, please refer to the relevant Safety Data Sheet

Packaging

logco-lease QD is available in 20 and 200 Litre Containers. IBC's available on request.

Storage

logco-lease QD should be stored under dry, frost-free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.

Important Note

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company. It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
