

LOGCO

PRODUCTS

Manufacturer & Supplier of Blended Oils
used in the Precast & Construction Industry

British Manufacturing

Established in 1918, Logco's mission is to develop innovative and reliable manufacturing solutions for the Precast & Concrete Industries, continuing research and development ensuring continuous improvement & technologies.

Logco's vast experience has enabled the development of environmentally friendly and Biodegradable products designed to replace the traditional solvent based range.

The eco range of materials have been specifically formulated using the latest water based technology to reduce both health, storage and ground contamination issues in an increasingly environmentally conscious industry.

We  *British Manufacturing*

Ecologically Friendly Concrete Release Agents

- eco-lease M02
(biodegradable chemical release agent)
- logco-lease 13T
(chemical release agent for vertical surfaces)
- logco-lease DC
(high performance release agent for the dry cast industry)
- eco-lease Biosyn 101
(synthetic release agent designed for heated pre cast beds)
- eco-lease Bio DC25e
(biodegradable release agent sold in a concentrate)

High Performance Formwork Oils & Concrete Release Agents

- logco-lease
(high performance formwork oil)
- logco-lease P
(high class chemical release agent)
- logco-lease QD
(quick drying release agent)
- logco-strike CMO
(cream mould oil release agent)

Ecologically Friendly Concrete Surface Retarders

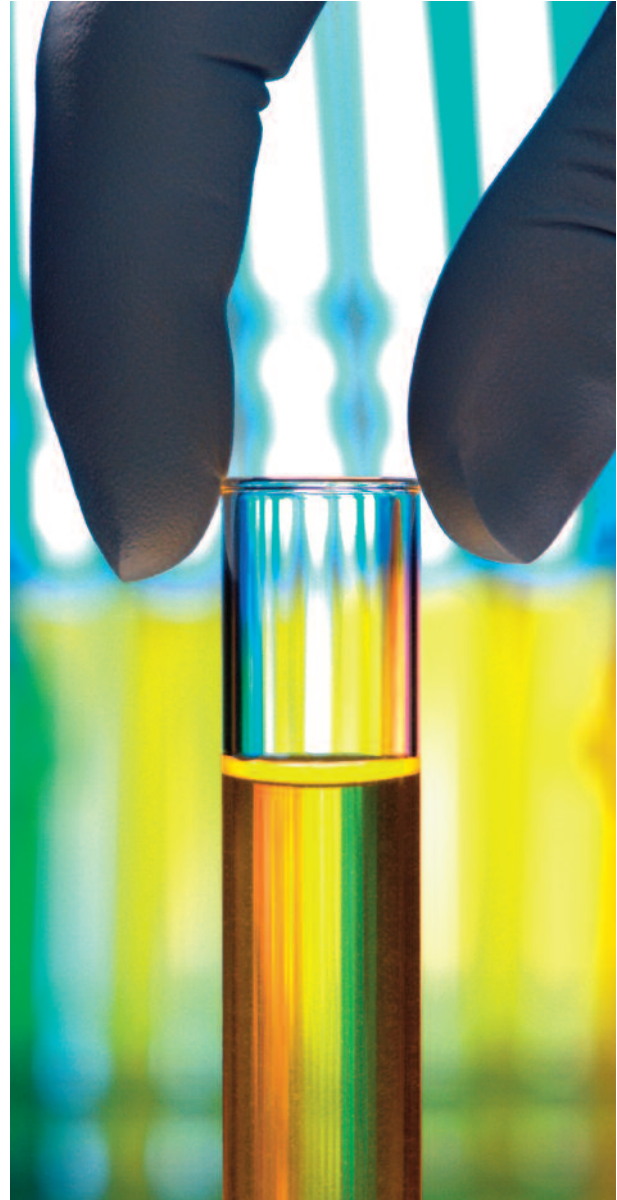

- eco-tard liquid TF
(environmentally friendly top face surface retarder)
- eco-tard gel MF
(environmentally friendly mould face retarder)

High Performance Curing Agents

- eco-cure SL
(water based concrete curing compound)
- eco-cure sealer
(water based concrete curing membrane & sealer)
- logco-cure R90
(high efficiency solvent based curing compound)
- logco-cure R90A
(aluminised high efficiency solvent based curing compound)

Surface Sealers & Barrier Oils

- eco-tuf RTA
(water based concrete hardener, sealer & dustproof)
- eco-wallseal
(high performance external water repellent)
- eco-pave block sealer
(solvent free acrylic surface sealer)
- eco-pave block sealer SS
(solvent free acrylic surface sealer with sand stabilisation)
- eco-barrier bio
(biodegradable barrier oil for plant & machinery)

**Specialist Manufacturers of Biodegradable & Environmentally
Friendly Blended Oils used in the Precast & Construction Industry**
