

## Logco Path & Patio Cleaner

High Performance masonry & patio cleaner concentrate.

---

### Description

logco path & patio cleaner is a concentrate designed to be let down with water to make a cleaner for paths and patios surfaces such as driveways, paths, paving, brickwork, fencing etc. No need for jet washing or scrubbing, simply dilute, apply and leave to dry. Effective against green moss and algae. Suitable for concrete, stone and wood.

---

### Advantages

- Diluted logco path & patio cleaner is fast acting, results can be seen within 24 hours of application , in many instances.
- It is easy to dilute and simple to apply
- Can also be used on both interior and exterior brickwork, stone, concrete, breeze block, plaster, fencing, wood and driveways
- Pleasant odour after application.

---

### Application

logco path & patio cleaner is supplied as a concentrate which must be diluted with water prior to use. A ratio of 1 part cleaner to 5 parts water is recommended.

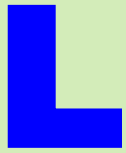

A uniform thin film should be applied to the surfaces using low pressure spray equipment or watering can with care being taken to **avoid** over application.

**Avoid** product entering fish ponds at all costs. Over applying onto greenery/trees should also be **avoided**. Simply leave to dry and can be washed away if required a couple of days later.

---

### Technical Data

Appearance	Low viscosity clear, amber liquid
Specific Gravity @ 15.6°C	0.928
Flash Point (PMCC)	57°C
Viscosity cSt @ 40°C	N/A
Coverage	30 –50 m2 per Litre after dilution
Recommended dilution	1 part logco patio cleaner to 5 parts water (dilution rate can be changed if required)

A large, bold, blue capital letter 'L' positioned vertically on a light green background.**Health & Safety**
