

Product Description

Logco Form Protect is a blend of wax and solvents to create a protective coating for metal surfaces. Suitable for material being stored or transported. Will inhibit corrosion and dispel moisture.

Application

- Logco Form Protect is suitable for new and used equipment.
- Remove any existing products from the surface and wash with clean water.
- If possible dip the steel into the Logco Form Protect to ensure complete coverage or apply by spray, brush or roller in a well ventilated area.
- Logco Form Protect will be touch dry in within 4 hours.
- Clean up tools and equipment with Logco Sitewash.
