

 **Product Description**

Logco Sitewash is an amber liquid developed for the cleaning of sprayers and other equipment that has been used with Logco Sitecure resin based products.

 **Application**

- Logco Sitewash solvent cleaner should be used at full strength.
- Immerse small parts in Logco Sitewash and agitate for several minutes, use a small brush to remove stubborn adhesions.
- Large parts and hoses should be flushed out repeatedly with Logco Sitewash and excess material returned to the drum.
- Logco Sitewash is flammable and care should be taken when using and when disposed of.
- Logco Sitewash may be used for several applications but effectiveness will be gradually reduced.

 **Health & Safety**

When working with Logco Sitewash suitable protective clothing, eye/face protection and gloves should be worn.

For further health and safety information, please refer to the relevant Safety Data Sheet.

 **Packaging**

Logco Sitewash is available in 5 litre tins, 25 litre bottles and 210 litre drums.

 **Storage**

Keep containers sealed. Store in dry conditions at room temperature and away from direct heat.

All applicable storage requirements for flammable materials should be observed.

 **Shelf Life**

When stored correct in unopened container storage stability is 1 year.

 **Important Note**

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.

Technical Services

Logco's Customer Services Department has a team of experienced advisors available to provide on-site advice both at the specification stage and during application. Detailed specifications can be provided for specific projects or more general works. Site visits and on-site demonstrations can be arranged on request.
