Logco lease Premium

Premium Grade Chemical Release Agent (BCA Category 5)

Product Description

Premium grade chemical release agent is a blend of reactive oils in a partially evaporative rapid drying hydrocarbon carrier. The carrier dries to form a barrier coating on the form face which subsequently reacts with alkalis in the concrete to form soaps at the interface. This double action facilitates easy formwork release and high quality concrete finish.

Uses

- Suitable for use on all types of formwork in all climatic condition.
- Untreated timber formwork should be saturated prior to first use.

Application

- Prior to application surfaces should be thoroughly cleaned.
- For timber and other porous formworks two coats of Logco lease Premium should be applied the second coat applied after the first has dried.
- Apply by spraying a very light mist coat.
- Do not over apply as over application is detrimental to surface finish.
- In cold weather it is advisable not remove the shuttering for at least 24 hours after placing and compacting the concrete.

Technical Data

Colour	Amber
Coverage	30-50 sq.mts per litre depending on surface porosity

Benefits

- Double action provides superior concrete surface finish.
- Recommended for use in confined or poorly ventilated areas.
- Stain-free, suitable for use with white or standard OPC concrete finish.
- Facilitates maximum re-usage of all types of formwork.
- High coverage rate provides economic usage.
- Quick drying on forms to provide cleaner and safer working surfaces.
- Will not impair the bond of any subsequent treatments to concrete.

Packaging

Logco lease Premium is available in 5, 20, 25 litre bottles and 210 litre drums. IBC's available on request.

Storage

Logco lease Premium should be stored in a cool, well ventilated area. Keep away from sources of ignition.

Shelf Life

Practically unlimited in sealed containers.
