

Product Description

Logco lease is an extremely versatile high specification chemical release agent blended with highly active surfactants. Logco lease is also an excellent corrosion inhibitor.

The blend of highly active surfactants assist in reducing surface tension at the interface between the concrete and the formwork, ensuring that optimum release is achieved hence achieving a high quality concrete surface finish.

Application

- Logco lease is supplied ready to use.
- A thin film should be applied to the formwork using low pressure spray equipment with care being taken to avoid over application.
- For new and unsealed timber formwork pre-treatment is recommended with a second application prior to use - this will extend the useful life of the formwork and help with surface absorbency.

Technical Data

Appearance	Low viscosity light brown liquid
Specific Gravity @ 15.6c	0.841
Flash Point (PMCC)	45°C
Viscosity cSt @ 40°C	3
Average Coverage	30-40m ² per litre
Shelf Life	12 months minimum
Pour Point	<-20°C

Advantages

- Produces a uniform, stain-free concrete.
- Protects timber against moisture ingress, thus extending the life of the formwork.
- Is completely versatile - can be used on timber, plywood, metal and plastic formwork.

Storage

Logco lease should be stored under dry, frost-free conditions away from the direct sunlight. Under these such conditions the shelf life is at least twelve months.

Packaging

Logco lease is available in 5, 20, 25 and 200 litre containers. IBC's available on request. Tanker pumpout available on request.

Health & Safety

When working with Logco lease suitable protective clothing, eye/face protection and gloves should be worn.

 **Important Note**

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.

Technical Services

Logco's Customer Services Department has a team of experienced advisors available to provide on-site advice both at the specification stage and during application. Detailed specifications can be provided for specific projects or more general works. Site visits and on-site demonstrations can be arranged on request.
