

SITEWASH

Solvent Cleaner for Sprayers

PRODUCT DESCRIPTION

Sitewash is an amber liquid developed for the cleaning of sprayers and other equipment that has been used with Sitecure resin based products.

TECHNICAL DATA

Colour	Amber
Packaging	210 litre drum, 25 litre bottle, 5 litre tins
Shelf Life	1 Year in sealed container when stored as recommended

BENEFITS

- Prolongs the life of sprayers and other valuable equipments.
- Ensures proper spray patterns and dose rates are adhered to.

APPLICATION

- Sitewash solvent cleaner should be used at full strength.
- Immerse small parts in Sitewash and agitate for several minutes, use a small brush to remove stubborn adhesions.
- Large parts and hoses should be flushed out repeatedly with Sitewash and excess material returned to the drum.
- Sitewash is flammable and care should be taken when using and when disposed of.
- Sitewash may be used for several applications but effectiveness will be gradually reduced.

STORAGE

- Keep containers sealed. Store in dry conditions at room temperature and away from direct heat.
- All applicable storage requirements for flammable materials should be observed.
- When stored correct in unopened container storage stability is 1 year.

HEALTH & SAFETY

When working with Sitewash suitable protective clothing, eye/face protection and gloves should be worn.

IMPORTANT NOTICE

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
