

 Product Description

Resinklens is a solvent for cleaning resin from tools, equipment and various other surfaces, preferably before the resin has cured. It can also be used for removing any residual release agent from formwork.

 Application

- When removing resin from tools, clean with Resinklens immediately after use before the resin has hardened.
- If removing old resin, work in Resinklens with a rag or stiff brush to remove any resin.
- When removing any residual release agent from formwork, the surface should be wiped with a rag soaked in Resinklens.
- When complete the surfaces should be wiped over with a clean dry cloth.
- When using epoxy mortars, Resinklens should be used to wipe over the float face to assist in obtaining a good smooth finish.

 Technical Data

Appearance	Clear liquid, low viscosity
Specific Gravity @ 15.6c	0.9
Flash Point (PMCC)	38°C

 Packaging & Storage

Resinklens is available in 5, 20 & 25 litre containers. Store under dry, frost free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.
